Auktion & Markt AG introduces itself

Auktion & Markt AG is one of the largest used vehicle marketers in the trade with its Autobid.de brand, via which more than 120,000 units are sold per year.

The vehicles are offered in open and closed dealer auctions. In the “live”, “online” and “Netlive” forms of auction vehicles will be auctioned every minute – in real time! The Netlive auction will be held simultaneously on site in an auction centre and online at www.autobid.de. Registered customers have access seven days per week 24 hours per day to vehicles and can bid if they wish.

In the interests of our valued dealers, the vehicle selection and acquisition will be carried out as carefully as possible. The auction vehicles are examined by our staff in person or by recognised external experts on site. A large number of photos document the exact condition of the vehicles.

We simply offer more:

- **Range of vehicles**
Cars, commercial vehicles, motorbikes, vehicles involved in accidents, trade-ins, leased and fleet vehicles, company and employee cars
- **Online auctions in 22 languages**

Notifications – always be up-to-date from now on!

Notification Center

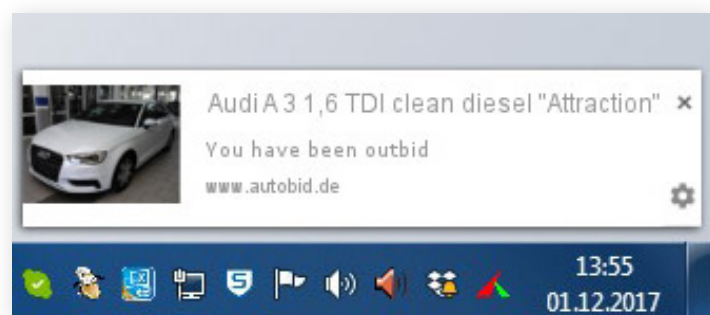

All your important notifications will be brought together in the Notification Center, the menu point with the bell symbol. You will be informed before e.g. a vehicle you have viewed is going into an auction or that someone has placed a higher bid than you. This means you will no longer miss out on any vehicles you are interested in.

Desktop notifications

All notifications are also available as desktop notifications. Arrange to be informed free of charge about all the current status reports on your desktop.

The brief notifications will always be displayed in the foreground regardless of which program you are using. Never miss a vehicle again and always remain up to date despite the other things you are working on.

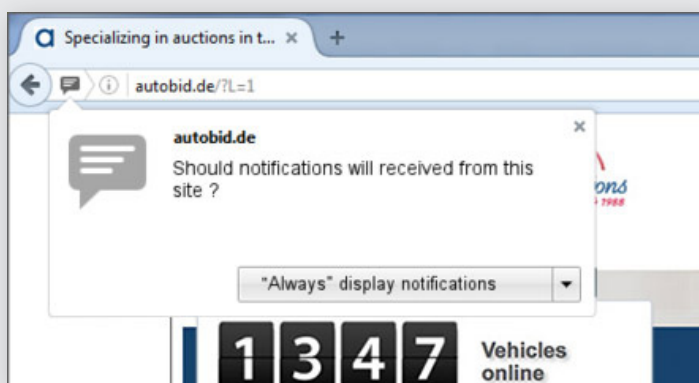

Installation

In just a few steps you can install the desktop notifications on your browser. All you need to do is open our website at www.autobid.de and then follow the instructions given:

Firefox: The request "Should notifications will received from this site?" will be displayed in the top left of your browser. Select the option "Always display notifications".

Chrome: The request "www.autobid.de would like to show notifications" will appear in the top left of your browser. If you click on "Allow" there – then the notifications function will be activated.

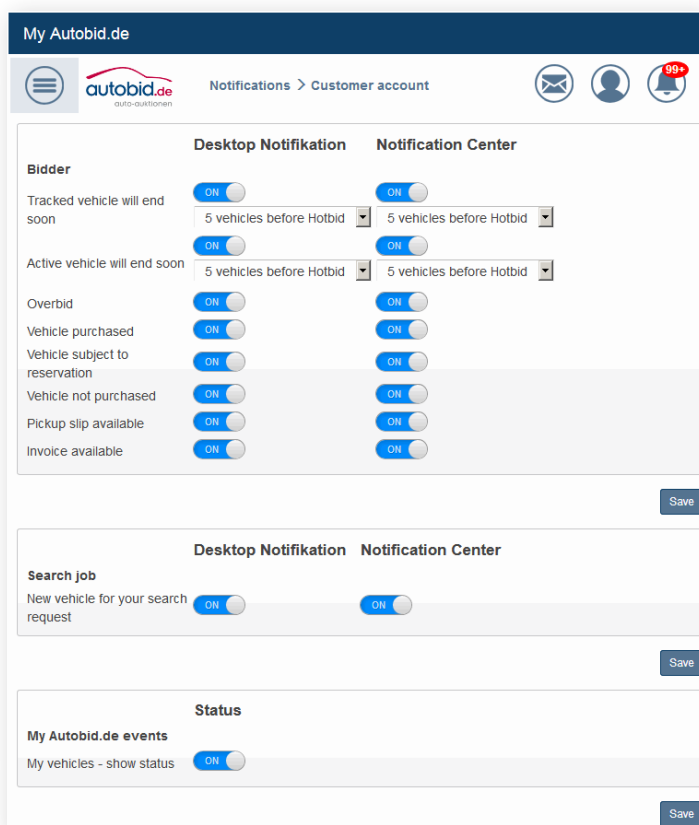

Please note

- The desktop notifications operate in Chrome and Firefox in all the versions which support HTML 5 notifications.
- www.autobid.de must be opened in a tab in your browser. However this can be minimised or hidden behind another program.

Settings

The various options for the Notification Center and desktop notifications can easily be activated or deactivated in "My Autobid.de > Customer account > Notifications".
